

HARPS Crop and Product List

HARPS utilises the Freshcare Crop List as a basis for product listings on the HARPS Certificate. Please refer to the following link for the Freshcare Crop List <https://www.freshcare.com.au/resources/freshcare-crop-list/>

The scope of HARPS covers whole fruit and vegetables, and nuts in-shell. As such, most of the Freshcare Crop List includes products accepted under HARPS with some exceptions.

The following products are accepted as in scope for HARPS approval:

Product	Notes / Varieties																		
<i>Soup Packs</i>	Soup Packs typically contain whole carrot, onion, potato, swede, turnip, and celery sticks). This product requires cooking before consumption.																		
<i>Corn Cobettes (Husk attached)</i>	Husk attached or removed																		
<i>Celery Sticks</i>	In Scope if the supplier has BRCGS or SQF as their approved GFSI Scheme																		
<i>Cut Vegetables</i>	Cabbage, Cauliflower and Pumpkin																		
<i>Cut Onions</i>	Topped and tailed (As sold in WA only)
